Our mission & values

Sunbytes' mission is

...To offer tailored expertise and resource solutions in IT to companies that create measurable positive impact.

We believe in

Our founders

Amanuel Flobbe
Director & Co-founder

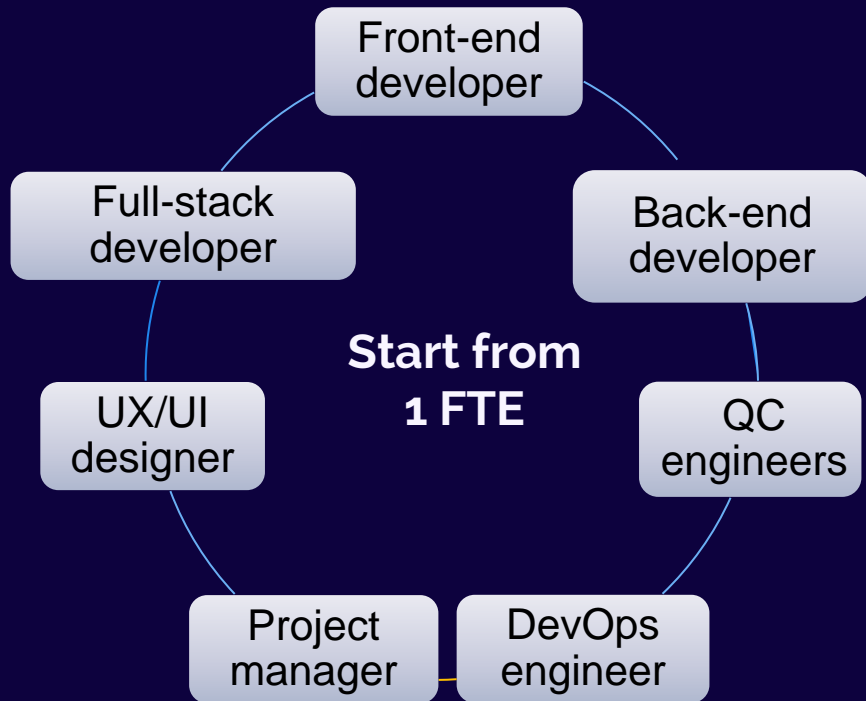

Joram Dees
Co-founder

Koen Klasing
Co-founder

Our core services

Dedicated teams : *a full-stack dedicated software development team that includes responsibilities*

Dedicated resources: *Dedicated remote engineers to cover different tasks in the whole Software development Life Cycle (SDLC).*

- ◆ Front end developers
- ◆ Back end developers
- ◆ Full-stack developers
- ◆ Quality Control engineers
- ◆ Project managers/ Scum Masters

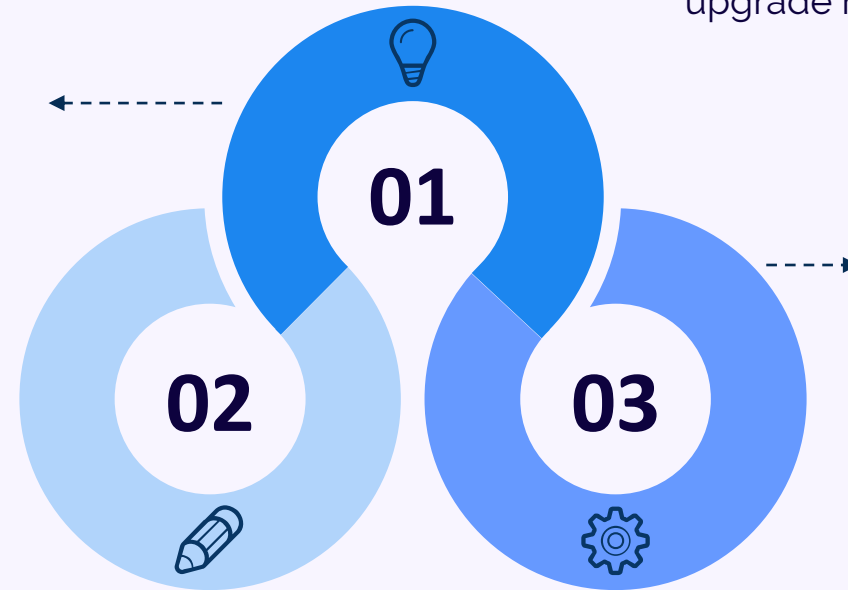

Capabilities we deliver

1. Creation, customization, enhancement

Our developers can build, customize and upgrade multiple features of any systems

2. Porting and Migration

Sunbytes developers have successfully migrated various applications to help our clients create centralized systems.

3. Legacy system maintenance, support

Hiring a skillful dedicated team to maintain a system is a good choice for cost saving.

Full cycle software development

For over 10 years of operation, we have supported our clients in bringing their ideas to life by developing many projects ranging from custom software development, API, complex websites, and mobile apps for our clients.

Our customers

« Sunbytes has been a critical part of development for Organic as we have grown from managing a single site to a wide portfolio of them. They are pragmatic, a pleasure to work with, and the communication with both their engineers and their management has made them feel like direct members of our own team. »

Justin DeMaris – CTO – Organic

Our customers

Wouter Bruijning

Digital Project Manager – Kwadraad

“We have a team where FUN is one of the things that comes to mind”

Eduardo Bernal

**Vice President Digital Delivery –
TeamViewer**

“Sunbytes’ in-depth knowledge and resources helped us several times to make the right decisions for the next stages of the projects”

Pieter Struik

Project Manager – Simplefly

“Sunbytes’ developers are the soul of our team.”

- Charity programs
- Green initiative program for staff

Digital solutions for a brighter future

- Support clients to create strategy map for sustainable growth
- Cooperate with like-minded partners
- Use sustainable coding languages
- Follow Sustainable Development Goals

Case study | Kwadraad

Country: the Netherlands

Client: Kwadraad, a social organization

Sector: Social services

Service: Dedicated Team

Task: Custom Software Development and maintenance

Kwadraad is an organization in the social domain executing social policies for the municipalities in South Holland and Utrecht-West.

We have work with them to first maintain their Online Dossier (an EPD system to communicate and keep track of progress) then renew the whole system with the most modern tech solutions to open up more capacity for the future usage.

Project Details:

Timeline: 2015 – now

Team Size: 8

Task: Maintain and develop Online Dossier 4.0

Project methodology: Scrum

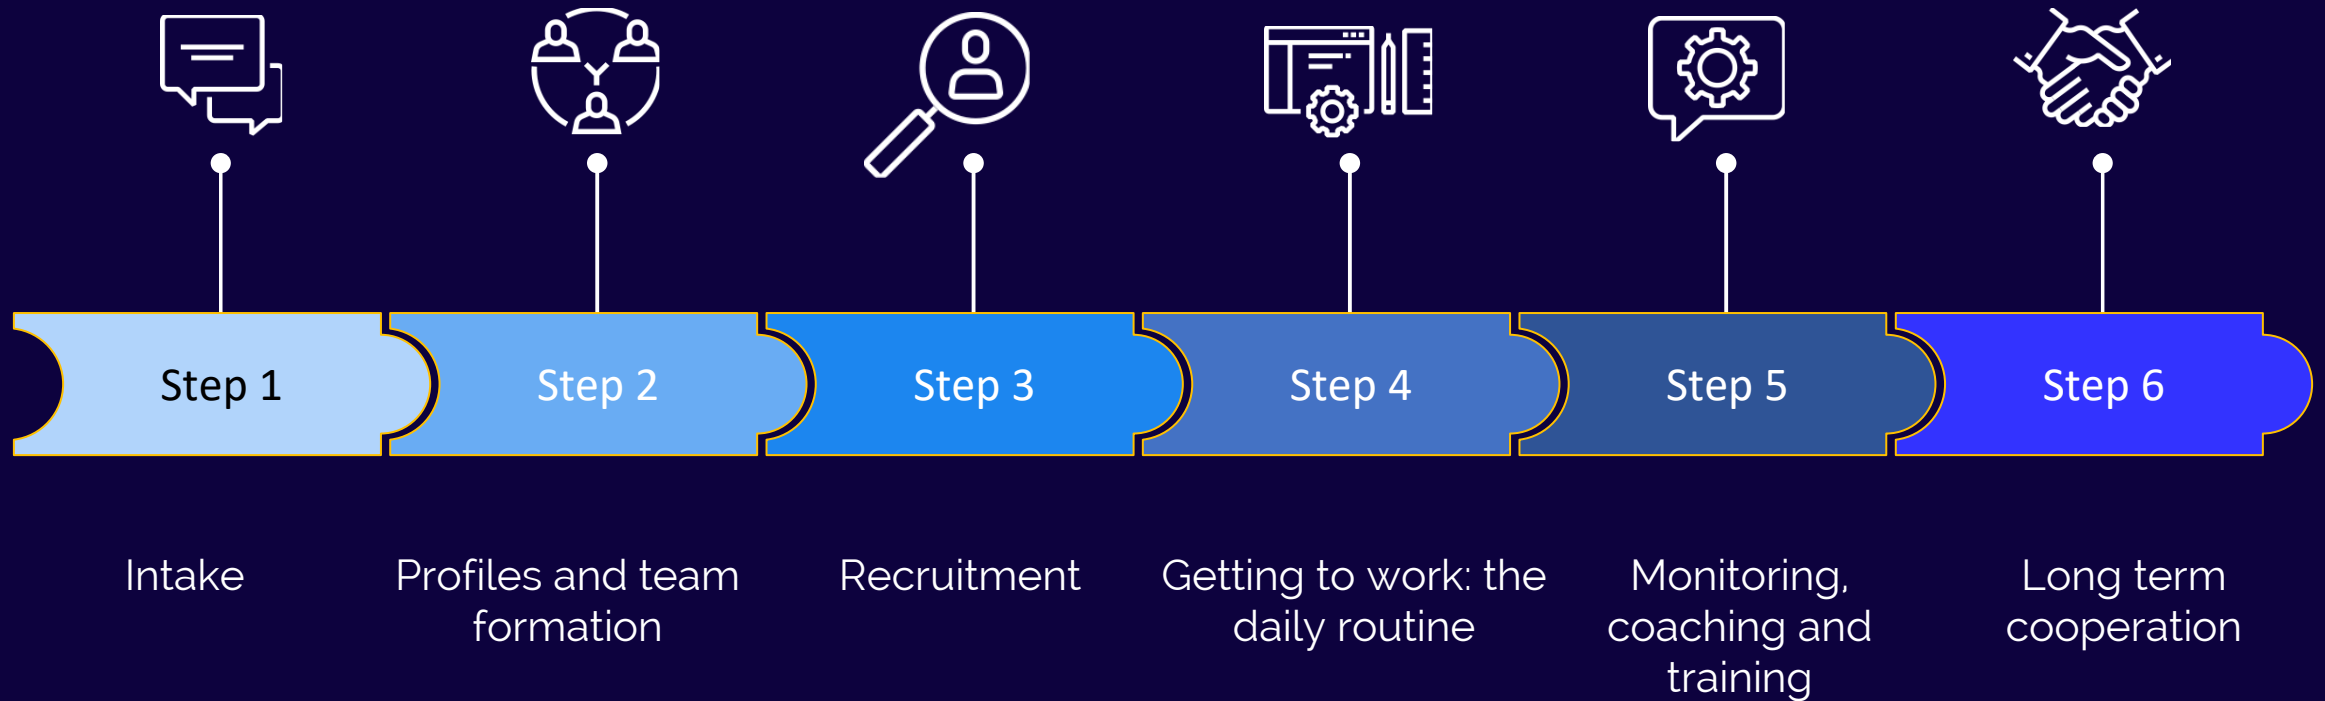

Technology stacks: Symfony, ReactJS, Kubernetes, Codeception, Sonarqube, API-Platform

Hybrid & multidisciplinary team

NL: UX, Visual design, architecture, Account manager

VN: Front end, Back end, DevOps, project management
